To whom it may concern,

The Whanganui River Maori Trust Board has been working with Marewa Paranihi for the last four years after purchasing his Iwi Registration Database.

Our records were easily transferred from our old database to the new database and Marewa is continually making improvements to his product to ensure it remains relevant to the needs of our organisation.

The database has good validation rules ensuring that whanau are not entered more than once. The database is compatible with the Tuhono which means it can be updated regularly from the Tuhono Database.

We are proud to support Marewa and the work he has done to develop this Iwi Registration Database.

No reira

Nancy Tuaine
Manager
